

APCT Tanks

Single Wall Containment Tanks

Key Features

- Industrial Grade Polyethylene
- Convenient Pump Mount
- Removable Lid
- Accessory Mount Areas
- Large Refill Opening
- Inner Stackable Design
- Lower Shipping Cost
- Optional Accessories

Application

Advantage Controls' APCT series of single wall containment solution tanks provide an customer friendly system for stationary liquid containment.

APCT tanks have a large, heavy duty lid that includes a multiple metering pump mounting area with spill containment, a large fill opening and four tank accessory mounting points for optional mixers, level sensors and quick fill connection.

Advantage Control's APCT tanks also give you the advantage of lower shipping cost since the lid is removable and the tanks can be inner stacked. Once on site simply snap on the lid.

Models

APCT-35	34 gallon tank with lid.
APCT-40	40 gallon tank with lid.
APCT-55	58 gallon tank with lid.
APCT-70	70 gallon tank with lid.
